

I am concerned that the proposed LPFM plan will eliminate my local K-LOVE station broadcast on an FM translator. K-LOVE serves a very specific need in my community to provide 24 hr positive and encouraging listening by bringing the gospel of Jesus Christ through a listener sponsored format. This programming would not be available in my area without being broadcast on an FM Translator. The Christian community is very strong in my area, with a large listening audience. Being able to listen commercial free to positive programming is a benefit to me, my family, and my community. I ask that you do not allow LPFM service to supplant programming currently offered on FM-Translator K-LOVE.

Thank you.
